

# **The Curriculum Vitae of Assist. Prof. Dr. Ghazwan Altaee; Neurosurgeon, Neuroendovascular Intervention Subspecialist**

## **PERSONAL INFORMATION**

- ☐ Ghazwan Alwan Lafta Altaee
- ☐ Iraq, Karbala
- ☐ E mail: ghazwan\_altayy@yahoo.com
- ☐ Phone: +9647706324669

## **THE CURRENT JOB AND POSITION:**

Head of Al-Hayat center for interventional radiology and neurointervention since June 2023.

## **EDUCATION AND TRAINING**

- ☐ Bachelor in medicine and surgery (M.B.Ch.B), College of medicine University of Baghdad, Iraq, Baghdad (2000-2006).
- ☐ A Fellow and member in the program of Arabic Board for Health Specializations (F.A.B.H.S.) neurosurgery 2015- Baghdad- Iraq.
- ☐ A Fellow in the program of Iraqi Board of Medical Specializations (F.I.C.M.S.) Neurosurgery 2015- Baghdad, Iraq.
- ☐ Training on complex spine surgeries, Vitus spine department, Mahaveer Jain hospital, Bangalore, India. 2018.
- ☐ Training on neurovascular microsurgery in College of Medicine, Beseshehir University, Istanbul-Turkey 2019.
- ☐ Training course (short fellowship) in endovascular management of stroke and complex vascular pathologies, Hyogo college of Medicine, Hyogo, Japan 2019.
- ☐ Full hands-on Fellowship of neuroendovascular intervention at Iran University of Medical Sciences (IUMS), Tehran, Iran: October 2019-April 2021.

## **ACADEMIC CAREER**

- ☐ Faculty member at Al-Zahrawi University College (2016-2017)
- ☐ Faculty member at University of Al-Ameed (2017 till now)
- ☐ A title of Lecturer in 2017
- ☐ A title of Assistant Professor in 2020

## **ACADEMIC POSITIONS**

- ☐ Vise dean of College of Medicine, University of Al-Ameed 2017-2019.
- ☐ Head of Department of Surgery, College of Medicine, University of Al-Ameed, 2018-2019
- ☐ Dean of College of Dentistry, University of Al-Ameed 2021-2022

## CONFERENCES

- Participation in the First conference of the Iraqi Council of Neurosurgery, held at the Neurosciences Hospital in 2017
- Participation in the Medical Education Conference (AMEE) held in Basel / Switzerland in 2018
- Participation in the First International Conference on Medical Sciences at Al-Ameed University in 2018
- Participation in the first conference on the advances in diagnosis and treatment of cancers held at the University of Kufa in 2019
- Participation in the Kyoto University Conference on Cerebral Vascular Malformations - Kyoto / Japan 2019
- Participation in the conference (AEEDC) for dental sciences, held in Dubai / UAE in 2021
- Participation in Al-Ameed University Second International Conference for Medical Sciences at University of Al-Ameed in 2021
- A speaker in the First neurosurgical conference held in Mosul city, Iraq 2024
- Participation in (WLNC) neuroendovascular conference held in Istanbul, Turkey 2024
- Participation in MINA-SINO neuroendovascular conference held at world trade center, Dubai, UAE.

## BOOK AUTHORSHIP

- Author of a medical book on the anatomy of the brain and nervous system, entitled: "Altaee Question Bank in Neuroanatomy"
- Participation in writing a medical book concerning with the neuroendovascular management with different specialists from Japan and other nationalities, entitled: " A Beginner's Guide to neuroendovascular Therapy"

## RESEARCH AND ARTICLES

- Treatment of post-traumatic direct carotid–cavernous fistulas using flow diverting stents: Is it alone satisfactory?
- A duplicate anastomosing L5 nerve root discovered during microsurgically treated lumbar disk herniation: A case report
- The microsurgical management of a brainstem compression resulted from an embolized cerebral tentorial dural arteriovenous fistula
- Primary intraosseous osteolytic meningioma without an evidence of soft tissue invasion
- The effect of adenosine in inducing cardiac arrest for endovascular treatment of paediatric high-flow brain and spinal vascular malformation
- Supratentorial intracerebral hemorrhage as a complication of infratentorial tumor removal: A case report
- Rules of Rhoton and saccular intracranial aneurysms: An in vivo radiological-anatomical confirmatory study in Iraqi population
- A death calls from unsafe heights. A study of factors influencing the outcome of surgically treated pediatric head trauma patients in Baghdad

- The study on incidence of brain atrophy in population with different educational levels
- Factors affecting the outcome in surgically treated civilian penetrating head injury: Case series
- Skin allergies generated by rubber gloves and excessive soaps and sterilizers due to COVID-19 pandemic: A review
- Factors affecting outcomes of surgically treated patients with cranial extradural hematoma: A cross sectional study.
- Casemix, management, and mortality of patients receiving emergency neurosurgery for traumatic brain injury in the Global Neurotrauma Outcomes Study: a prospective observational cohort study.
- Bilateral Internal Carotid Artery Dissection as a Possible Complication in a patient with Covid-19 infections and coughing
- COVID-19 outbreak as a probable cause of increased risk of intracranial rebleeding in partially treated cerebral arteriovenous malformations
- Factors associated with the severity of traumatic brain injury
- The role of computed tomography and Glasgow Coma Scale in detecting spinal injury associated with traumatic brain injuries.
- Flow diverting stent monotherapy as the best choice in the treatment of intracranial blood blister-like aneurysms: a systematic review
- Endovascular neurointervention in Iraq: Realistic obstacles, a hopeful start with “Al-Hayat center”

## **ARTICLES REVIEW**

A reviewer in many medical journals particularly in journals concerning with the field of neurosurgery, as: Surgical neurology international, interdisciplinary neurosurgery, Frontiers of Neurology.
